Are Taxes *KILLING YOU* Financially? YOU can STOP the BLEEDING — NOW!

The BIGGEST "Economic Relief" in America goes to HOME-BUSINESS OWNERS!
In fact, our government will actually PAY YOU to run your own Home-Based Business!!!

WHY?

Small Business has always been the backbone of the American economy, so it is **Small Home Businesses that will return America to Growth and Prosperity.**

HOW?

It's called the "velocity of money." The more money in circulation and the faster it circulates, the stronger the economy. Small businesses spend money to make money, then they spend more money to make more money. **So, the key to economic recovery is getting lots of businesses started quickly.**

BUT...

I know, I know, half of Americans are broke, and the other half are afraid to spend the money they do have, so how do we get a bunch of new small businesses going?

SOLUTION—

Let Uncle Sam pay for the start-up costs and the ongoing operating costs. How? It's called an "Ethical Bribe," and here's how it works... YOU agree to start, and to run, a part time home-based business, to run it with a profit intent, and to keep adequate business records. **UNCLE SAM says, "If you do that, I'll cut your taxes by \$3,000 to \$6,000 or more every year, starting RIGHT NOW,** and furthermore, I'll let you collect part of your additional Tax Refund every couple of weeks, all year long — NOT waiting for April 15.

HOW'S THAT WORK?

As soon as you add up all of your tax savings, you can visit your payroll office to fill out a short form called a W-4 that will begin to put an **extra \$300-\$600 per month in your take home pay — beginning with your very next paycheck!!!** That means you get part of your additional tax refund in every paycheck, all year long! **It's like putting \$100 extra cash in your pocket every week — week after week after week!** That's just from tax savings not even counting the money you'll make in your business!

HOW EASY IS IT TO QUALIFY?

Work your business at least 3 to 4 hours a week, be able to show you're trying to make a profit, and keep adequate

COMBINED!!!

HOW CAN YOU STOP THE BLEEDING?

- Immediately learn how to get the huge, new, home-business tax breaks
- Immediately begin collecting your \$300-\$600 PER MONTH in new tax refunds

NOT having a home business is INSANE!

But **YOU** can **STOP** the insanity **right NOW!** Ron Mueller has done the hard part for you. He has translated the convoluted Tax Code into Plain English so that the average person can easily understand it, and immediately put it to use reducing their own taxes to the legal minimum. **"Home Business Tax Savings MADE EASY!"** is the **ONLY** 'plain English' step-by-step guide to home-business tax breaks authorized by Congress.

WILL CLAIMING THESE DEDUCTIONS INCREASE MY CHANCES OF BEING AUDITED?

When you drive 55 mph in a 55 mph zone, does that increase your chances of getting a speeding ticket? When you pay for everything you pick up in the store, does that increase your chances of being stopped for shoplifting? When you pay your rent on time, does that increase your chances of being evicted? You get the idea. **When you KNOW the law and OBEY the law, is there any reason to fear law enforcement? Of course not. The IRS is NOT going to "target" you for claiming legal tax deductions.** What if you are selected for a "random audit"? Well, consider it an "unavoidable inconvenience," not something to produce enzymes in the pit of your stomach. In fact, most of my students report that an audit resulted in an additional refund! **How's that?** While successfully defending the deductions they had claimed, they discovered some tax deductions they had forgotten to claim — so they went back home and filed **Amended Returns**, and got a second refund on tax returns they already filed, **PLUS INTEREST.**

"WHEN THE IRS WAS FINISHED REVIEWING THIS BOOK, THEY DIDN'T ASK FOR A SINGLE CHANGE!"

OKAY, NOW WHAT?

Think about the hardest course you ever took in school. You know, the one you found frustrating, confusing and bewildering. The one that felt like you were trying to nail jelly to the wall. **NOW IMAGINE what that same course would have been like IF:**

- Your textbook didn't read like a "text" book, but rather like a "guide" book,
- Your instructor explained things in plain English and made the subject FUN,
- Your instructor made it all practical and helped you relate it to real life,
- You had an unlimited amount of time to ask questions and get good answers
- You were even given Outlines that made note-taking EASY,
- Every class session was recorded & you could listen to or download recordings.

Would THAT have made the course easier? Duh!

AND THAT RELATES ...um... HOW?

What we just described above is a tele-course called,

"BASIC ESSENTIALS for Home-Business Tax-Savings."

- Your instructor **DOES** explain things in plain English and makes the subject FUN,
- Your book **DOES NOT** read like a "text" book, but rather like a "guide" book,
- Your instructor **DOES** make it practical and helps you relate it to real life,
- You **DO** have an unlimited amount of time to ask questions and get good answers
- You **WILL** be even given Outlines that make note-taking EASY,
- Every class session **IS** recorded & you **CAN** listen to or download all recordings.

WHAT PROMISES CAN YOU MAKE ABOUT THIS COURSE?

If you are an average taxpayer, making an average income, running an active part-time home-based business,

- You will see **YOUR TAXES DROP BY \$3,500-\$6,000 PER YEAR** or more, beginning this year
